COVER LETTER · DATADOG · SENIOR PRODUCT MANAGER - INTEGRATIONS & ECOSYSTEM · NEW YORK, NY

Hiring Team at Datadog

I am applying for the Senior Product Manager - Integrations & Ecosystem role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Worked hands-on with Claude, OpenAI, Gemini, and Copilot as integration partners, not just API consumers.

WHY I AM A STRONG FIT:

- Datadog is building LLM/Agent Observability, AI Guard, Sensitive Data Scanner, GPU monitoring, Model Lab, AI & Data... — my relevant shipped work: Lupine Science — Alex's materials-science AI platform: shipped MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Combines research-grade physics with a shipping product surface.
- devtools/platform PM work and developer-ecosystem enablement at Obsess/Arkadium: Led the 3D experience platform at Obsess — avatars, analytics, SOC 2 — shipping for global enterprise brands.
- I've shipped the work this role calls for — including: Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1xix9bj

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
