Hiring Team at Experian

I am applying for the Senior Product Manager, AdTech Identity Graph - Remote role (United States).

My pitch for this role is simple: I'm a technical PM who has rebuilt enterprise identity at scale. Ran SSO / SAML / OIDC onboarding for 150+ AmLaw 200 firms.

WHY I AM A STRONG FIT:

- Experian is building Identity graphs and AdTech identity resolution, fraud/identity ML, Ascend analytics and... — my relevant shipped work: Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- LBR identity & security PM work; frame identity-graph/AdTech as applying identity-resolution expertise to advertising data products: Unified access models across legacy and new product surfaces, unlocking new revenue.
- Ive shipped the work this role calls for — including: Shipped a type-safe AI API workspace (oRPC) with self-improving accuracy.

A FEW SHIPPED REFERENCE POINTS:

- Public company
