Hiring Team at Ironclad

I am applying for the Senior Staff Product Manager, Growth role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Built the type-safe AI API workspace with self-improving usage accuracy at LBR.

WHY I AM A STRONG FIT:

- Ironclad is building Agentic architecture - Intake Agent, Redlining Agent, Conversational Search, Ironclad Assistant... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Arkadium subscription/user-growth with Manatt legal/document-AI: 'a growth PM who also deeply understands the legal-AI product Ironclad sells.' Note: SF-based (remote/relocation question): Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- Ive shipped the work this role calls for — including: Built contextual, data-informed content systems that drove cross-platform adoption at Arkadium.

A FEW SHIPPED REFERENCE POINTS:

- Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
