

Identity for agents is a 1:1 match with my career. I am reaching out proactively: this is the role I have been preparing for without knowing it.

Identity is my single deepest expertise
Replaced a legacy identity & subscription system at billions-scale; configured SAML/OIDC SSO.

I understand agents at a build level
lupi.live / lupine.science — my materials-science AI stack — means I understand the access.

First-PM range: strategy + hands-on
Architect PM who sets strategy and prototypes in TypeScript; comfortable owning product 0'1.
