Hiring Team at Compass

I am applying for the Senior Product Manager II - Consumer Search role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

WHY I AM A STRONG FIT:

- Compass is building Compass AI: voice-activated AI assistant for agents; Buyer Demand tool surfacing buyer interest... — my relevant shipped work: Lupine Science — Alex's materials-science AI platform: shipped MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Combines research-grade physics with a shipping product surface.
- user-growth & engagement wins (Arkadium subscription/consumer) applied to search conversion: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- I've shipped the work this role calls for — including: Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.

A FEW SHIPPED REFERENCE POINTS:

- Public company

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
