## Hiring Team at Roku

I am applying for the Senior Product Manager, Ads Targeting & Audience Activation role (New York, NY).

My pitch for this role is simple: I'm a platform PM who has shipped developer tools at scale. Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

### WHY I AM A STRONG FIT:

- Roku is building AI-driven content recommendations/personalization; OneView DSP using first-party audience data for... — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- data-driven growth and platform PM; tie identity/data-privacy experience (LBR) to first-party audience activation: Drove cross-platform adoption of contextual, data-informed content systems at Arkadium.
- I've shipped the work this role calls for — including: Built High Era — a full go-to-market automation OS (FastAPI + SvelteKit + GCP), architected end-to-end as a single operator.

### A FEW SHIPPED REFERENCE POINTS:

- Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- Drove cross-platform adoption of contextual, data-informed content systems at Arkadium.
- Re-platformed the identity & subscription system at LBR, unifying access across 10+ products.
