COVER LETTER · TALENER · PRINCIPAL - PRODUCT MANAGER · HOBOKEN, NJ

Hiring Team at Talener

I am applying for the Principal - Product Manager role (Hoboken, NJ).

My pitch for this role is simple: I'm a technical PM with 12+ years across AI, identity, and platforms. I've shipped AI, platform, and identity products end-to-end across multiple regulated and consumer companies.

WHY I AM A STRONG FIT:

- Talener is building N/A (recruiter); client AI focus unknown — and my shipped work maps to it.: See experience.ts (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- Ask the recruiter to identify the client/domain, then lead with the strongest matching theme (AI, platform, or security): Unified access models across legacy and new product surfaces, unlocking new revenue.
- Ive shipped the work this role calls for — including: Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.

A FEW SHIPPED REFERENCE POINTS:

- Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- Unified access models across legacy and new product surfaces, unlocking new revenue.
- Shipped a type-safe AI API workspace (oRPC) with self-improving accuracy.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-j15hl7

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
