Hiring Team at DoorDash

I am applying for the Associate Manager, Partner Integrations role (New York, NY).

My pitch for this role is simple: I'm a platform PM who has shipped developer tools at scale. Designed and shipped a type-safe workspace for executing AI APIs with live introspection across three internal APIs.

WHY I AM A STRONG FIT:

- DoorDash is building AI merchant onboarding, AI menu 'smart tags', AI-built merchant websites, AI ads/personalization — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- Skip unless used as a foot-in-the-door; otherwise a down-level move: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- Ive shipped the work this role calls for — including: Re-platformed the identity & subscription system at LBR, unifying access across 10+ products.

A FEW SHIPPED REFERENCE POINTS:

- Public company

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
