COVER LETTER · SECURITYSCORECARD · PRINCIPAL PRODUCT MANAGER, AI · GREATER SEATTLE AREA

Hiring Team at SecurityScorecard

I am applying for the Principal Product Manager, AI role (Greater Seattle Area).

My pitch for this role is simple: At SecurityScorecard, same Principal PM, AI req posted for Greater Seattle (remote): owns agentic AI workflow strategy and AI architecture/eval standards My track record — Obsess: 3D/agent platform for Alo/Moncler/Ralph Lauren; CreateSuite multi-agent orchestration built solo — maps directly to the ai agents & developer tools work this role demands.

WHY I AM A STRONG FIT:

- I bring the ai agents & developer tools perspective this role needs.: Obsess: 3D/agent platform for Alo/Moncler/Ralph Lauren; CreateSuite multi-agent orchestration built solo
- Twelve-plus years of ai agents & developer tools work — Obsess: 3D/agent platform for Alo/Moncler/Ralph Lauren; CreateSuite multi-agent orchestration built solo: Obsess: 3D/agent platform for Alo/Moncler/Ralph Lauren; CreateSuite multi-agent orchestration built solo
- I meet the bar on 'Production AI/LLM/agentic features' — the work itself is in my shipped portfolio.: Obsess: 3D/agent platform for Alo/Moncler/Ralph Lauren; CreateSuite multi-agent orchestration built solo

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-pni8cp

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
