Hiring Team at BNY

I am applying for the Director, POM Technical Product Management, AI Hub role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

WHY I AM A STRONG FIT:

- BNY is building 'Eliza' internal agent-building platform (125+ live use cases, 134 'digital employees'); OpenAI and... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- I build AI/agent developer platforms and tooling that let other teams ship agents safely: Unified access models across legacy and new product surfaces, unlocking new revenue.
- Ive shipped the work this role calls for — including: Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.
