COVER LETTER · GOOGLE · GROUP PRODUCT MANAGER, GENERATIVE MEDIA, GOOGLE LABS · NEW YORK, NY

Hiring Team at Google

I am applying for the Group Product Manager, Generative Media, Google Labs role (New York, NY).

My pitch for this role is simple: I'm a technical PM with 12+ years across AI, identity, and platforms. I've shipped AI, platform, and identity products end-to-end across multiple regulated and consumer companies.

WHY I AM A STRONG FIT:

- Google is building Gemini models, Vertex AI / Cloud AI agent platforms, Google Labs generative media (Imagen, Veo),... — my relevant shipped work: Lupine Science — Alex's materials-science AI platform: shipped MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Combines research-grade physics with a shipping product surface.
- the Obsess generative-AI agent work and Arkadium consumer/creative platform scale as evidence of shipping AI-powered creative experiences to large audiences: Set access-control policy across the research platform during its transition from on-prem to multi-tenant cloud.
- I've shipped the work this role calls for — including: Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.

A FEW SHIPPED REFERENCE POINTS:

- Public company

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-quajot

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
