COVER LETTER · ADONIS · DIRECTOR, AI · NEW YORK, NY

Hiring Team at Adonis

I am applying for the Director, AI role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.

WHY I AM A STRONG FIT:

- Adonis is building 'Intelligence, AI Agents, and Orchestration' platform; AI agents automating RCM workflows — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Manatt document-AI (extraction/accuracy on regulated legal docs) as a direct analog to claims/denials accuracy: I ship trustworthy AI on messy regulated documents.: Worked hands-on with Claude, OpenAI, Gemini, and Copilot as integration partners, not just API consumers.
- Ive shipped the work this role calls for — including: Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
