COVER LETTER · METROPOLIS TECHNOLOGIES · DIRECTOR, APPLIED AI · NEW YORK, NY

Hiring Team at Metropolis Technologies

I am applying for the Director, Applied AI role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

WHY I AM A STRONG FIT:

- Metropolis Technologies is building Vehicle recognition / computer vision; 'remembered commerce' / recognition-commerce ambitions... — and my shipped work maps to it.: See experience.ts (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- Obsess AI-agents/devtools delivery and Manatt document-AI automation as proof he can stand up an applied-AI function driving operational cost savings: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Ive shipped the work this role calls for — including: Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
