Hiring Team at Adobe

I am applying for the Senior Product Manager role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.

WHY I AM A STRONG FIT:

- Adobe is building Firefly generative AI, Acrobat AI Assistant, AI in Creative Cloud and Experience Cloud; heavy push... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- AI product launches and subscription/user-growth wins to fit Adobes product-led-growth + AI culture: Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- Ive shipped the work this role calls for — including: Set access-control policy across the research platform during its transition from on-prem to multi-tenant cloud.

A FEW SHIPPED REFERENCE POINTS:

- Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
