[COVER LETTER](#) · [DOUBLEVERIFY](#) · [SENIOR PRINCIPAL PRODUCT MANAGER \(ROCKERBOX\)](#) · [NEW YORK, NY](#)

Hiring Team at DoubleVerify

I am applying for the Senior Principal Product Manager (Rockerbox) role (New York, NY).

My pitch for this role is simple: I'm a technical PM who has rebuilt enterprise identity at scale. Shipped a type-safe AI API workspace (oRPC) with self-improving accuracy.

WHY I AM A STRONG FIT:

- DoubleVerify is building Scibids AI (ad optimization, acquired 2023); combining with Rockerbox attribution data — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- Manatt: I build products where accuracy and user trust in AI output is the product - exactly Rockerbox's need: Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- I've shipped the work this role calls for — including: Unified access models across legacy and new product surfaces, unlocking new revenue.

A FEW SHIPPED REFERENCE POINTS:

- Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- Unified access models across legacy and new product surfaces, unlocking new revenue.
- Shipped a type-safe AI API workspace (oRPC) with self-improving accuracy.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
