Hiring Team at Figma

I am applying for the Director, Product - Enterprise role (New York, NY).

My pitch for this role is simple: I'm a technical PM who has rebuilt enterprise identity at scale. Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.

WHY I AM A STRONG FIT:

- Figma is building AI across the platform (Figma AI, Make/code generation, design-to-code); evolving from design tool... — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- LBR enterprise identity & security PM (SSO/SCIM/admin) as core to enterprise readiness; tie platform experience to scale: Unified access models across legacy and new product surfaces, unlocking new revenue.
- Ive shipped the work this role calls for — including: Shipped a type-safe AI API workspace (oRPC) with self-improving accuracy.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-uz4tfy

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
