Hiring Team at LSEG

I am applying for the Product Manager, AI role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Built contextual, data-informed content systems that drove cross-platform adoption at Arkadium.

WHY I AM A STRONG FIT:

- LSEG is building AI across financial data and analytics; partnership with Microsoft to embed GenAI/Copilot in... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- AI PM who can embed GenAI into data products: Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- I've shipped the work this role calls for — including: Built the type-safe AI API workspace with self-improving usage accuracy at LBR.

A FEW SHIPPED REFERENCE POINTS:

- Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.
