COVER LETTER · HACKAJOB · DIRECTOR, PRODUCT MANAGER, DEVELOPER EXPERIENCE, AI · NEW YORK, NY

Hiring Team at hackajob

I am applying for the Director, Product Manager, Developer Experience, AI role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Integrated MCP servers and agent skills into production research tooling.

WHY I AM A STRONG FIT:

- hackajob is building 'Archer' AI sourcing agent; in-house AI agents for talent matching — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Obsess developer-tools PM work as near-identical: I ship AI developer tooling that makes builders faster.: Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.
- Ive shipped the work this role calls for — including: Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
