Hiring Team at Rockstar Games

I am applying for the Associate Principal Product Manager, Commerce role (Manhattan, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.

WHY I AM A STRONG FIT:

- Rockstar Games is building No prominent public AI product; AI a contentious internal/labor topic — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- monetization/subscription growth and platform commerce experience from consumer products: Unified access models across legacy and new product surfaces, unlocking new revenue.
- Ive shipped the work this role calls for — including: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.

A FEW SHIPPED REFERENCE POINTS:

- Private subsidiary of Take-Two Interactive (NASDAQ: TTWO)

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
