Hiring Team at Cedar

I am applying for the Principal Product Manager (AI/ML Personalization Platform) role (New York, NY).

My pitch for this role is simple: I'm a platform PM who has shipped developer tools at scale. Drove cross-platform adoption of contextual, data-informed content systems at Arkadium.

WHY I AM A STRONG FIT:

- Cedar is building AI/ML for personalized patient billing engagement, payment optimization and resolution; engages... — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- an AI personalization platform PM who improves engagement/conversion — bridge document-AI and growth experimentation: Operated as the only PM in a build that shipped a full marketing-automation OS to production on Google Cloud.
- Ive shipped the work this role calls for — including: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
