Hiring Team at Compass

I am applying for the Senior Product Manager II role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Led the 3D experience platform at Obsess — avatars, analytics, SOC 2 — shipping for global enterprise brands.

WHY I AM A STRONG FIT:

- Compass is building Compass AI: voice-activated AI assistant for agents; Buyer Demand tool surfacing buyer interest... — my relevant shipped work: Lupine Science — Alex's materials-science AI platform: shipped MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Combines research-grade physics with a shipping product surface.
- platform PM building tools that power other professionals workflows; tie AI assistant trend to Obsess agent work: Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- I've shipped the work this role calls for — including: Worked hands-on with Claude, OpenAI, Gemini, and Copilot as integration partners, not just API consumers.

A FEW SHIPPED REFERENCE POINTS:

- Public company

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
