Hiring Team at Duolingo

I am applying for the Senior Product Manager, Monetization role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.

WHY I AM A STRONG FIT:

- Duolingo is building GPT-powered features (Duolingo Max, Video Call/Lily AI tutor), AI-generated content, 'AI-first'... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- quantify conversion/retention impact and frame as a freemium monetization specialist: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- I've shipped the work this role calls for — including: Unified access models across legacy and new product surfaces, unlocking new revenue.

A FEW SHIPPED REFERENCE POINTS:

- Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
